

The South China Sea

Developments in Paleoenvironmental Research

VOLUME 13

Aims and Scope:

Paleoenvironmental research continues to enjoy tremendous interest and progress in the scientific community. The overall aims and scope of the *Developments in Paleoenvironmental Research* book series is to capture this excitement and document these developments. Volumes related to any aspect of paleoenvironmental research, encompassing any time period, are within the scope of the series. For example, relevant topics include studies focused on terrestrial, peatland, lacustrine, riverine, estuarine, and marine systems, ice cores, cave deposits, palynology, isotopes, geochemistry, sedimentology, paleontology, etc. Methodological and taxonomic volumes relevant to paleoenvironmental research are also encouraged. The series will include edited volumes on a particular subject, geographic region, or time period, conference and workshop proceedings, as well as monographs. Prospective authors and/or editors should consult the series editors for more details. The series editors also welcome any comments or suggestions for future volumes.

EDITOR AND BOARD OF ADVISORS

Series Editor:

John P. Smol, Queen's University, Canada

Advisory Board:

Keith Alverson, Intergovernmental Oceanographic Commission (IOC), UNESCO, France

H. John B. Birks, University of Bergen and Bjerknes Centre for Climate Research, Norway

Raymond S. Bradley, University of Massachusetts, USA

Glen M. MacDonald, University of California, USA

Contents

1 Introduction	1
<i>Pinxian Wang and Qianyu Li</i>	
References	14
2 Oceanographical and Geological Background	25
<i>Pinxian Wang and Qianyu Li</i>	
Introduction	25
2.1 Bathymetry and Geomorphology	26
2.2 Oceanography	28
Monsoon	29
Surface Circulation	32
Surface Temperature and Salinity	34
Thermocline and Upwelling	38
Water Exchange with Pacific and Kuroshio Intrusion	40
Deep Water Circulation	45
Other Oceanographic Features	48
Oceanographic Summary	48
2.3 Tectonic History and Sedimentary Basins	49
Prior Terrains and Opening of the SCS	51
Step-Wise Closure of the Sea Basin	58
Formation of Shelf-Slope Sedimentary Basins	59
Sediments of the SCS Shelf-Slope Basins: An Overview	64
Summary of Tectonics and Basin Formation	67
References	68
3 Stratigraphy and Sea Level Changes	75
Introduction	75
3.1 Lithostratigraphic Overview (<i>Li Q. and Zhong G.</i>)	76
Pre-Cenozoic Basement	76
Lithostratigraphy of Syn-Rift Sediments	76
Post-Rift Sediments in Shelf-Slope Basins	80
Deep Water Lithostratigraphy	86

3.2	Biostratigraphic Framework (<i>Li Q.</i>)	93
	Floral and Shallow-Water Faunal Assemblages	93
	Planktonic Foraminiferal and Nannofossil Biostratigraphy	95
	Quaternary Lithobiostratigraphic Events	98
3.3	Isotopic and Astronomical Stratigraphy (<i>Tian J. and Li Q.</i>)	100
	Neogene Isotopic Records at Site 1148	100
	Pliocene–Pleistocene Isotopic Records at Site 1143	107
3.4	Stratigraphy of Major Shelf and Slope Basins (<i>Zhong G. and Li Q.</i>)	109
	Northern South China Sea Basins	111
	Southern South China Sea Basins	128
3.5	Regional Sea Level Changes (<i>Zhong G. and Li Q.</i>)	147
	Late Quaternary Sea Level Changes	148
	Long-Term Sea Level Changes Since the Oligocene	149
	New Approach Toward Fine-Scale Sea Level Magnitude	151
	Summary of South China Sea stratigraphy	155
	References	157
4	Sedimentology	171
	Introduction	171
4.1	Surface Deposition Patterns (<i>Liu Z.</i>)	172
	Deposit Distribution Patterns	172
	Sediment Transport	178
4.2	Terrigenous Deposition (<i>Liu Z.</i>)	180
	Clay Mineralogy and Geochemistry of Source Areas	180
	Clay Minerals	181
	Geochemistry	187
	Terrigenous Sediment Supply in Glacial Cycles	192
	Long-Term Changes of Terrigenous Sediment Supply	199
4.3	Biogenic Deposition	204
	Carbonate (<i>Li J. and Wang P.</i>)	204
	Opal (Wang R.)	217
4.4	Coral Reefs (<i>Yu K. and Zhao J.</i>)	229
	Modern Coral Reef Distribution	230
	Carbonate Platform Sediments and Calcium Carbonate Production	237
	Reef History	248
4.5	Volcanic Deposition (<i>Liu Z.</i>)	255
	Volcanic Rock Distribution	255
	Volcanic Ash Records	257
	Case Studies: Pinatubo, Toba	258
4.6	Estimation of Deposit Mass Since the Oligocene (<i>Huang W. and Wang P.</i>)	262
	Data Sources and Analyses	263
	Sediment Distribution and Mass	265

Estimation of Terrigenous and Carbonate Masses	267
Depositional Patterns	269
Major Characteristics of SCS Sedimentation	276
References	278
5 Upper Water Structure and Paleo-Monsoon	297
Introduction	297
5.1 Sea Surface Temperature History (<i>Jian Z. and Tian J.</i>)	298
SST Proxies	298
Paleo-SST Reconstruction	303
Paleo-SST Patterns	312
5.2 Thermocline Depth History (<i>Tian J. and Jian Z.</i>)	318
Proxies of Thermocline Depth	318
Paleo-Thermocline Depth	320
5.3 Vegetation History in Deep-Sea Record (<i>Sun X.</i>)	328
Pollen Distribution in Surface Sediments	329
Long-Term Evolution	331
Last Glacial Pollen Records: North-South Differences	342
North-South Comparison of the Vegetation During the LGM	349
5.4 Monsoon History (<i>Jian Z. and Tian J.</i>)	351
Monsoon Proxies	352
Tectonic-Scale Long-Term Evolution	360
Orbital-Scale Variability	363
Suborbital-Scale Variability	374
Summary	381
References	382
6 Deep Waters and Oceanic Connection	395
<i>Quanhong Zhao, Qianyu Li and Zhimin Jian</i>	
Introduction	395
6.1 Modern Deep Waters and Their Faunal Features	396
Marginal Seas in the Western Pacific	396
Modern Intermediate and Deep Waters in the South China Sea	397
Modern Deep-Sea Benthic Foraminifera and Ostracods	398
6.2 Late Quaternary Deep-Water Faunas and Stable Isotopes	402
6.3 Neogene and Oligocene Deep-Water Benthic Faunas	
from ODP Leg 184 Sites	405
Site 1148 Benthic Foraminifera	405
Site 1148 Ostracods	412
Faunal Indication of Deep-Water Mass Changes	412
6.4 Deep Water Evolution: Evidence from Carbonate	
Preservation and Isotopes	419
Carbonate Dissolution	419
Isotopic Records	422

6.5 Oceanic Connection	425
Summary	427
References	430
7 Biogeochemistry and the Carbon Reservoir	439
Introduction	439
7.1 Productivity and Nutrient Dynamics in the Modern	
South China Sea (<i>Zhao M.</i>)	440
Primary Productivity	440
Nutrient Supplies	442
Community Structure, Export Productivity and Sedimentary	
Biogenic Content	445
7.2 Paleoproductivity Reconstruction of the South China Sea	
(<i>Zhao M.</i>)	449
Patterns of Productivity Changes During Glacial-Interglacial	
Oscillations	449
Pre-Pleistocene Paleoproductivity Changes	457
7.3 Carbon Reservoir Changes (<i>Wang P., Tian J. and Li J.</i>)	459
Modern Carbon Cycling	459
Late Quaternary $\delta^{13}\text{C}$ Cyclicality	463
Long-Term Trend of Carbon Isotopes	473
Summary	476
References	476
8 History of the South China Sea – A Synthesis	485
<i>Pinxian Wang and Qianyu Li</i>	
Introduction	485
8.1 Evolution of the South China Sea Basin	486
Pre-Spreading Stage in the Early Paleogene	486
Seafloor Spreading in the Oligocene-Early Miocene	487
Post-Spreading Stage Since the Late Miocene	488
8.2 Evolution of the East Asian Monsoon	489
Summer Monsoon and Chemical Weathering	489
Winter Monsoon and North-South Contrast	491
East and South Asian Monsoons	492
8.3 Evolution of Continent-Ocean Interactions	494
References	495
Index	497
